

Langbome Emerging Farmers

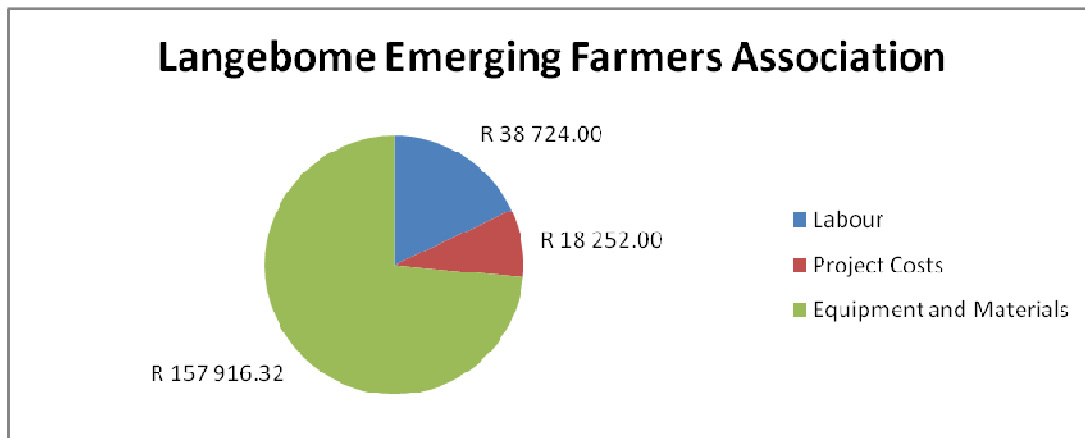

IWRM Objectives – Water for emerging farmers,
Cooperative governance, empowerment & capacity building

Langbome is a small community near Wupperthal, located along the Tra-Tra River in the Cederberg mountains. Before DWA IWRM, this community relied on water led in an earthen furrow with the result of large losses of water. The community in partnership with Department of Water Affairs IWRM and the Department of Agriculture, replaced a long section of the open furrow with a PVC pipeline with takeoff's. The water saved is being used to expand the emerging farmers operations and to lengthen their planting season.

Financial Information for Langbome Emerging Farmers (LN11)

The Langebome Emerging Farmers Association was awarded a contract named IWRMII-OD-LN11-013 in 2008 to the value of R236,774.00. R214,892.32 was spent in the given contract period and the project status is "Closed" at the time of this report (31 August 2009).

Of the budget allocated to this group, R157,916.32 was spent on materials and equipment to build the operations, R38,724.00 was allocated to wages and payments for work done on project tasks, and R18,252.00 was claimed to support the project management and administration tasks undertaken by the group.

The total invested in this group by IWRM is thus R214,892.32 since June 2007
